FOR IMMEDIATE RELEASE

THE YORK WATER COMPANY DONATES \$500,000 TO OVER 50 LOCAL NON-PROFITS

York, Pennsylvania, March 20, 2020: This week, over 50 non-profit organizations in our Community are receiving nearly \$500,000 through The York Water Company's Educational Improvement Tax Credit (EITC) program. From the Children's Home of York, to Crispus Attucks, from the YWCA of York, York Day Nursery, and the Jewish Community Center of York, our local non-profit organizations are the backstop of our community. As eligible organizations through the State's EITC Program, they offer educational scholarships for Pre-K and school-aged children, provide innovative programming, and invest these EITC resources into serving the needs of our Community. The State's EITC program enables York Water to invest its tax dollars at home, in York and Adams Counties.

We recognize the value of our community partners, what they do for our neighbors, friends, and family in times of good cheer and challenge. For 204 years, York Water has been a part of this Community, investing in our water and wastewater infrastructure. We were here and serving our partners through the Civil War, the 1918 Spanish Flu pandemic, World Wars I and II, and the events of 9/11. Our Community will endure, we will persevere, and we will stand together through this crisis. We are grateful to have such exemplary and resourceful non-profit partners. Together, all is possible.
