**Calculate your monthly bill:**

1. Most residential customers are 5/8" meter, so start with the \$16/mo customer charge.

2. Determine if you are a "Gravity" or "Repump" customer (written on your bill). Then add \$4.435 or \$7.321 per 1,000 gallons per month. So a gravity customer using 4,000 gal/month:  $\$16 + (\$4.435 \times 4) = \$33.74/\text{mo}$ .
