<div style="background-color: #d9534f; color: white; padding: 5px;"> <p><b>Calculate your monthly bill:</b>                      1. Most residential customers are 5/8" meter, so start with the \$16.25/mo customer charge.                      2. Determine if you are "Gravity" or "Repump" customer (written on your bill). Then add \$5.012 or \$8.111 per 1,000 gallons per month. So a gravity customer using 4,000 gal/mo:  <math>\\$16.25 + (\\$5.012 \times 4) = \\$36.30/\text{mo}</math></p> </div>	5/8	\$16.25	\$16.25
